

KANITA FOČO

JUNIOR SOFTWARE ENGINEER

Sarajevo, BiH • +387-61-819-430 • focokanita@gmail.com • [LinkedIn](#) • [GitHub](#)

- Motivated junior software engineer with a strong track record in problem-solving, communication, and organisation.
- Skilled in code analysis, engineering solutions, and rapid adoption of new technologies, dedicated to customer-focused innovation and contributing critical thinking to cutting-edge projects.

PROJECTS

Interactive Web Application Development

- Developed a responsive web application using JavaScript, HTML, and CSS, incorporating Bootstrap components, Sass for styling, and semantic HTML5 tags.
- Spearheaded the implementation of a responsive navigation bar, multiple content sections, validated forms, and CSS animations to enhance functionality and user experience.

Web Application with jQuery Integration

- Developed and enhanced a responsive web application using JavaScript and jQuery, integrating dynamic content like an image gallery with modal windows, content toggle buttons, and an accordion menu.
- Implemented robust form validations and AJAX data handling, showcasing proficiency in client-side scripting and API integration.

Portfolio SPA with ReactJS and Material UI

- Developed a responsive Single Page Application (SPA) showcasing a portfolio with ReactJS and Material UI components.
- Integrated React Router for smooth navigation and customised the UI design using Material UI's theming, ensuring a user-friendly and visually appealing experience.

Interface Design using Figma

- I designed and prototyped an interactive application interface in Figma, utilising diverse tools such as buttons, animations, plugins, custom fonts, interactive elements, and colour schemes.
- The project focused on crafting seamless user flows, detailed animations, and precise interactions to deliver a compelling and intuitive design experience.

EDUCATION

- Bachelor's Degree, Information Technology, International Burch University
- ITAcademy Certified JavaScript Developer

AWARD

- Sarajevo Unlimited - Award for Innovative Idea and Entrepreneurship (Application SkillSpark)

SKILLS

- **Programming Languages:** Java, Python, C++, , JavaScript, SQL, HTML5, CSS3
- **Frameworks & Libraries:** React, Node.js, Bootstrap, jQuery
- **Development Tools:** Git, GitHub
- **Databases:** MySQL, PostgreSQL, DBever

OTHER

- "INN & TECH" conference on the importance of the development of technology, innovation, and IT technologies

LANGUAGE

- English
